GLOBAL IMPACT Of Cyber Crimes

According to IBM Cost of a Data Breach Report 2023, the Global Average Cost of a Data Breach in 2023 was USD 4.45 Million, a 15% Increase over 3 Years

Italy - 3.43 Million

United Kingdom - 3.3 Million

France 10.49 Million

Russia - 78.36 Million

Spain 7.82 Million

China - 2.64 Million

United States - 96.75 Million

India 5.34 Million

Taiwan - 4.05 Million

Brazil - 3.26 Million

United Kingdom - 3.3 Million

Australia - 3.54 Million

Number of Accounts Exposed in Data Breaches Worldwide in 2023 According to Statista

CLIENT Feedback

Hear What Our Clients Have To Say

★★★★★

Amar and his company has helped us in finding out solution in many problems regarding cyber security. Working with Amar and his team has always given me a comfort where you can totally rely on him, and Amar find the solution. Technical expertise of the entire team are very good and I will suggest everyone to give him a chance and avail of his services. I can confidently say that I am a happy and satisfactory Customer of Amar.

Abhishek Nikam

Ex-CEO

JMN INFOTECH

★★★★★

Doshaheen was in need of a comprehensive VAPT service to ensure the security and integrity of our digital assets. From the outset, Lumiverse team demonstrated a deep understanding of security protocols, compliance standards, and the latest vulnerabilities and threats in the digital landscape. Their professionalism and expertise were evident in every phase of the engagement, from scoping the project to delivering the final report.
